Hours of Operations: ☐ **Between 6 a.m. and 6 p.m.** ☐ **Evenings:** _____ to _____

SR 69 Widening Project Plans

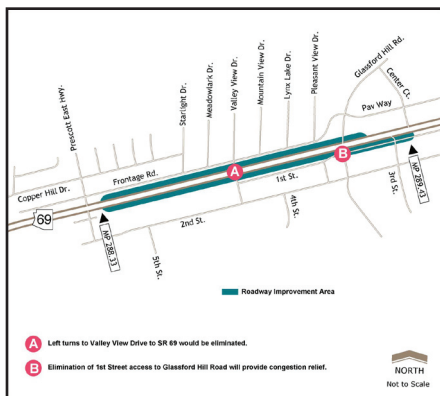

Project Purpose and Need: The Arizona Department of Transportation (ADOT) held an open house to discuss the upcoming construction for the State Route (SR) 69 widening project from Glassford Hill Road to Prescott East Highway.

CURRENT PLAN - DESIGN PLAN NO. 3: In working with the Town of Prescott Valley, the project team has revised their original plans. The new plan will increase the capacity of the roadway by adding an additional travel lane on the north side of SR 69, replacing the existing road surface with rubberized asphalt, and improving drainage. Current roadway vehicle counts through the area are approximately 45,000 vehicles per day. These improvements will provide reasonable access to businesses along this section of SR 69.

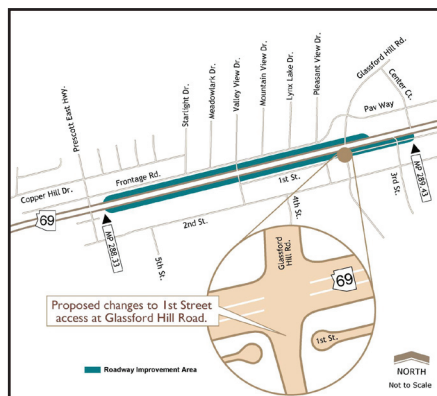

YOUR COMMENTS ARE IMPORTANT TO US!

Please review and comment about the widening improvements in the space provided below.

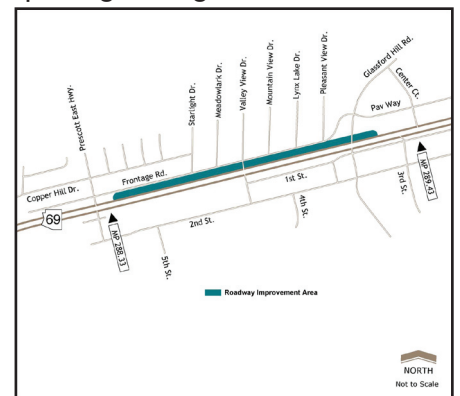

Design Plan No. 1 - Improvements include adding an additional travel lane in both northbound and southbound directions, removing the center turn lane, restricting left turns to Valley View Drive, and eliminating 1st Street access to Glassford Hill Road.

Design Plan No. 2 - Improvements include adding an additional travel lane in both northbound and southbound directions, keeping the left turn to Valley View Drive, and eliminating 1st Street access to Glassford Hill Road.

Design Plan No. 3 - Improvements will increase the capacity of the roadway by adding an additional travel lane on the north side of SR 69, replacing the existing road surface with rubberized asphalt, and improving drainage.
